HERE + THERE
HyeKyong Yun

November 14 to December 2, 2008

Vernissage: Friday, November 14th, 2008, 5 to 8 pm

Les Territoires Contemporary Art Gallery is pleased to present **HERE + THERE**, a solo exhibition by artist HyeKyong Yun, from November 14th to December 2nd, 2008.

The photographs from this exhibition demonstrate an objectification of HyeKyong's self-portraiture through other subjects. The focus is on Asian males in their twenties; not yet men, but no longer boys. In their culture and upbringing, they are taught to repress their feelings, to appear emotionless. This is in sharp contrast with their natural state as they are passing through an especially chaotic time in their lives. The loss of communication between the human being and the environment that surrounds him as he searches for his identity is exposed by the subject's melancholy: a deep emptiness in his facial expression and gesture as he interacts with the world around him.
